

I believe the Internet should remain a Free-market, Free Enterprise, Capitalistic success story, for the vast majority of American Internet users, who are not going to be clamoring for regulations anytime soon.

We Americans don't want any left-wing ideology extremist minority group, that calls themselves The Free Press, or any other left-wing ideology extremist group, no matter what they call themselves, dictating to us what we can and can't do, or say, or print!!!

America is a REPUBLIC built on the FREE MARKET, FREE ENTERPRISE CAPITALIST SYSTEM, and that's the way 'We The People' want it to remain!!!

America is the greatest country in the world, and we won't relinquish our freedoms to, or for anyone!!!

Real "GRASS ROOTS" Americans put their FAITH and TRUST IN GOD, not the government!!! Our RIGHTS COME FROM GOD, not the government!!! We are ONE NATION UNDER GOD!!! That's the American position whether they're on the Internet or not!!!

Remember the old Voltaire saying, "I do not agree with what you have to say, but I'll defend to the death your right to say it." That's FREEDOM OF SPEECH, friends.

I reject the new regulations, as I know all other Americans do, minus the 'lefty ideology extremist' minority group, called The Free Press. We need to allow the free-market Internet to continue flourishing.

Here's a quote from President Ronald Reagan, "The Founding Fathers knew a government can't control the economy without controlling people. And they knew when a government sets out to do that, it must use force and coercion to achieve its purpose. So we have come to a time for choosing."

What President Reagan was saying about the economy goes for all our freedoms, folks!!! I chose Freedom!!! How about you???

Listen to this quote from one of our Forefathers, John Adams, "A constitution of government once changed from freedom, can never be restored. Liberty, once lost, is lost forever."

We must never let anyone take away any of our God given rights and Freedoms, America, not of speech, or press, or media, NOT ANY!!! If even one person is denied his or her freedom of speech, press, or any freedom, we all lose that God given right and freedom!!! What freedom will they want to take away next???

Myself and many other Americans are "Damn" mad about this, and I don't cuss as a rule!!! The Obama administration needs to listen, and take this next quote to heart and learn from it well!

John F. Kennedy, "Without DEBATE, without CRITICISM, no administration and no country can succeed -- and no REPUBLIC can survive." Without free speech in the press, in the media, and on the Internet you squash all Debate and Criticism. WOW!!! Looks as though that's their real, here goal folks!!!

Remember Obama wants to "Fundamentally Transform American"!!! It's beginning to look like Obama's critics are right, he's a "Progressive Socialist" who wants to convert our country into something we won't recognize and definitely won't want!!!

What happens here with our Freedom of Speech, press, and media, will more than likely set the stage for what will happen to the rest of our God given rights and freedoms!!! So stand tough America!!!

I'll give several more quotes, that describe the situation our world is in today, from President Ronald Reagan. (1) "It is not my intention to do away with government. It is rather to make it work -- work with us, not over us; stand by our side, not ride on our back. Government can and must provide opportunity, not smother it; foster productivity, not stifle it."

(2) "Government growing beyond our consent had become a lumbering giant, slamming shut the gates of opportunity, threatening to crush the very roots of our freedom. What brought America back? The American people brought us back -- with quiet courage and common sense; with undying faith that in this nation under God the future will be ours, for the future belongs to the free."

(3) "We who live in free market societies believe that growth, prosperity

and ultimately, human fulfillment, are created from the BOTTOM UP, NOT THE GOVERNMENT DOWN. Only when the human spirit is allowed to invent and create, only when individuals are given a personal stake in deciding economic policies and benefiting from their success -- only then can societies remain economically alive, dynamic, progressive, and free. TRUST THE PEOPLE. This is the one irrefutable lesson of the entire postwar period CONTRADICTING the notion that rigid government controls are essential to economic development."

(4) "Freedom is the right to question and change the established way of doing things. It is the continuous revolution of the marketplace. It is the understanding that allows to recognize shortcomings and seek solutions."

(5) "If all this seems like a great deal of trouble, think what's at stake. We are faced with the most evil enemy mankind has known in his long climb from the swamp to the stars. There can be no security anywhere in the free world if there is no fiscal and economic stability within the United states. Those who ask us to trade our freedom for the soup kitchen of the welfare state are architects of a policy of accommodation."

(6) "It was leadership here at home that gave us strong American influence abroad, and the collapse of Imperial Communism. Great nations have responsibilities to lead, and we should always be cautious of those who would lower our profile, because they might just wind up lowering our flag."

(7) "We need true tax reform that will at least make a start toward restoring for our children the American Dream that wealth is denied to no one, that each individual has the right to fly as high as his strength and ability will take him...But we cannot have such reform while our tax policy is engineered by people who view the tax as a means of achieving changes in our social structure."

I wonder folks, does listening or reading the words of President Reagan, bring to your mind as it does mine, how President Reagan seems to know everything about Obama, it's very strange, because I know it to be impossible for them to ever have met.

Yet, President Reagan is describing Obama to a 'T', he knows him inside and out, folks. He must, because he refers to him as he warns us of evils to guard against, about the government growing beyond our consent, government riding on our backs, government trying to crush the very roots of our freedom, government stifling opportunity, growth to our economy comes from the bottom up, not from the government down, rigid government controls are not essential to economic development, you can and should question ways of doing things in government, you can't have security anywhere in the free world without fiscal and economic stability in America, don't trade our freedoms for the 'soup kitchen' of the welfare state, wealth is denied to no one, he warns of those who would lower our profile, they might just end up lowering our flag, he also warns of people in government using taxes as a mean to change our social structure.

Gee, sounds like all the things Obama is trying to do, not avoid!!!

Well folks, let beat this grab for our God given right of freedom of speech, press, and media, then we'll tackle each thing as it comes. God Bless you all
